TAUQIR MOMIN

UI/UX DESIGNER (3.2 Years of Experience)

+91 7700048184 | tauqirmomin19@gmail.com | Portfolio | LinkedIn | GitHub | Mumbai, India

UI/UX and Product Designer with hands-on experience designing full ecommerce platforms end-to-end from wireframes to shipped product. Skilled across web, app, and visual design (Figma, Adobe Creative Suite), with the added ability to bring designs to life through front-end development, motion graphics, and video content giving full ownership from concept to final launch asset.

WORK EXPERIENCE

UI/UX Designer & Developer, Medi Aid Xpert

Nov 2025 - Aug 2026 — In-Office/Mumbai, India

- Redesigned the customer-facing UI from an outdated, manual-era site into a premium, modern shopping experience
- Designed the information architecture and dashboard UX for inventory, multi-branch stock tracking, and invoicing
- Led full product design for automation features (auto-listing, auto-invoicing) that replaced manual workflows
- Directed the visual overhaul alongside front-end implementation, ensuring design intent carried through to build

UI/UX Designer & Developer, Neustryd

Nov 2025 - Aug 2026 — In-Office/Mumbai, India

- Designing and building an independent ecommerce platform from scratch, owning both UX and front-end implementation
- Designed the checkout and payment experience for clarity and trust
- Produced marketing and launch content UI/UX design, video editing, motion graphics, and product photography/video (turntables, product shoots)

Web Designer and Developer, Freelance

Jun 2023 - Nov 2025 — Remote

- Delivered UI/UX design and front-end development across international clients, from bug fixes to full redesigns
- Designed a responsive maintenance page for a London-based client, praised for clarity and visual balance
- Partnered with startup teams to design and build web platforms from scratch

Contract UI/UX Designer, KM Product Development

Feb 2025 - May 2025 — Mumbai, India

- Designed and redesigned landing pages, ecommerce screens, and responsive layouts in Figma
- Handled complete design flow from wireframes to interactive prototypes
- Iterated designs based on user feedback, improving usability across multiple projects

Contract Application Designer, Paré Company

Aug 2024 - Nov 2024 — Mumbai, India

- Redesigned an outdated internal employee app, transforming the full UI in Figma
- Improved navigation and reduced clutter, earning positive feedback from the internal team
- Delivered multiple revisions over a 2-month engagement based on real user feedback, completing with high client satisfaction

PROJECTS

- Interactive Physics-Based Web Experience — Designed and built browser-based interactive experiences using physics simulation (Matter.js) and motion design (GSAP)
- Billing Management App — Designed and built a desktop invoice/inventory tool for small retailers (Python, Tkinter)
- Chat Application Website — Designed and developed a real-time messaging interface
